HOUSEWIVES DEMAND CONGRESS ACT

PRESIDENT WILL TOUR COUNTRY FIRST

(By Associated Press)

Washington, July 25.—President Wilson does not now intend to present the defensive treaty with France to the Senate until after he returns from his tour of the country. This statement was made today at the White House. When he presents the treaty he will accompany it with an explanatory address to the Senate. No statement was made at the White House yesterday that the President had violated a section of the treaty by not presenting it simultaneously with the Treaty of Versailles.

The President was in his study early. Among the many matters before

him was the preparation of information and documents relating to the peace negotiations requested by the Senate. Indications today were that he would start on his westward trip about August 10th, although it depends upon the developments in Washington. He is considering a week end cruise on the Mayflower, the weather being ideal.

N. Y. CHICAGO PLANE OPERATED

(By Associated Press)

Washington, July 25.—While the Washington-New York air mail plane left on time today, despite the strike of pilots the postoffice department had no official report at noon to show that any others were in flight. A report from Chicago, however, said the machines in the western division were "leaving on time."

File Petition Asking Congress to Reduce Cost of Living---Republican Leaders Set Aside German Treaty---Any Change in Treaty Will Reopen All Negotiations

(By Associated Press)

Washington, July 25.—Any reservation in Senate ratification of the Peace Treaty would reopen the whole field of negotiation, encourage other nations to make reservations and renew international discussion, declared Senator Tamm of Nevada, a democratic member of the Foreign Relations Committee in an address today in the Senate. "Speaking purely as an American," he said, "I believe that our nation will be in as much danger as any other nation in the world if this treaty falls. Already there are signs in Europe of the abandonment of peaceful intentions and groups of nations are feeling their way to organization for war and conquest. If the world does not soon guarantee France and Italy and the new nations against aggression through concerted action under the League of Nations, there will be an alliance of powers superior to our strength that will not be in sympathy with our policies and our interests."

Under present plans of Republican leaders the German peace treaty will

be set aside temporarily for consideration of the treaty between the United States and Colombia proposing payment to the latter of \$25,000,000 for damages arising from American acquisition of the Panama Canal. Chairman Lodge of the Senate Foreign Relations Committee said today the Colombian treaty would be taken up by the committee next week with plans for its immediate ratification by the Senate. Action on the treaty has been urged by State Department officials.

Replying to a letter from the League of National Consumers Representative Pinkham of Massachusetts said today that "thorough and complete investigation of the present cost of living is of vital necessity and importance" and that general and not special legislative measures must be taken. The League has written urging passing of the pending measure for control of the meat packers as a method of lowering living cost. The letter said the housewives of the country were rather "fed up" with investigations.

PRESIDENT SIGNS AGRICULTURAL BILL

(By Associated Press)

Washington, July 25.—President Wilson today signed the Agricultural Appropriation Bill from which Congress had eliminated a rider repealing the daylight saving act after he had vetoed the original message.

TWO LOSE LIVES IN FIRE AT MANCHESTER

(By Associated Press)

Manchester, N. H., July 25.—Two unidentified persons are believed to have lost their lives in a fire which damaged two four-story tenement buildings on Lake Avenue, a congested district, early today. While firemen were rescuing the scores of occupants who had been driven from their beds by the flames, they saw two persons on the piazza of an upper tenement signalling for help. Smoke immediately concealed the piazza from view and when a ladder was raised to it, no one was found. The fire originated apparently in the kitchen of a restaurant. An explosion occurred soon after the alarm was given.

21 NEW SHIPS DELIVERED

(By Associated Press)

Washington, July 25.—Deliveries of 21 ships to the Shipping Board during the week ending July 18th, brought the total since the United States entered the war, to 1,111. Of the grand total 806 were steel, the others were wood and composite.

ASSAULT ONE OF THE GUARDS AT FORT FOSTER

Attacked by Two Civilians
on Gerrish Island Thursday Night.

Private Byrd, one of the coast artillery men on guard at Fort Foster on Gerrish Island, on Thursday night was assaulted by two civilians who made their escape. The story has it that Byrd was patrolling near the store houses about 11 o'clock when he was knocked senseless by a club or some other instrument and otherwise abused by the two men.

Other members of the guard heard the noise made in the scuffle and hurried to the scene but the assailants had escaped. A hunt was made all over

the island and in Kittery but no trace of the men could be found.

Byrd was removed to the hospital at Fort Constitution where he remained unconscious for over an hour. Today he is reported out of danger.

PRESIDENT MAKES CALL ON WAR DEPT.

(By Associated Press)

Washington, July 25.—President Wilson paid an unexpected call on Secretary Baker at the State, War and Navy Building just before noon. After conferring for half an hour with Mr. Baker, the President called on Secretary Lansing, remaining about ten minutes. He then returned to the White House. There was no intimation as to what matters he had discussed with the Secretary.

Council Authorized Committee to Secure Plans---Amend. and Put Teeth in the Jitney Law---Provide \$75,000 Bond Issue For School House---To Erect a Memorial Table For Great War---Other Business

The Mayor and Council held a long drawn out meeting on Thursday evening and as it was the first for many weeks, there was considerable business and more discussion. Mayor Hislop presided and the full council was present.

Several matters that have been hanging over were disposed of. The special committee was authorized to proceed with the memorial tablet; the committee on City Land and Building were authorized to go ahead with plans for a new central fire station; the Jitney law was amended taking the granting of licenses out of the hands of the City Clerk and vesting it in the Council.

The Council took up nearly an hour considering a petition of Sam Tawbe for a license to establish four bowling alleys and six pool tables in a building he was erecting, running from Vaughan to Fleet streets. With the petition was a petition favoring the granting of the license and one signed by residents of that section opposing the measure.

Mr. Mayor W. Marvin appeared for Tawbe and claimed that the street was no longer a residential section and that it was as much a business section as any of the main streets. He stated his client had an investment of upwards of \$25,000 and was entitled to have a license to make proper

use of property. Mr. Tawbe also talked to the council and told them of his plans. After considerable discussion a motion of Councilman Barrett refusing the petition was passed. Mr. Tawbe then put in a petition to erect five stores and a garage on the property and this was granted subject to the fire zone restrictions.

A communication from the Board of Instruction changing the site of the new school house on the City Farm lot, from the top of the hill to a point more central, was received and the previous vote of the Council was reconsidered and the new site accepted and seven acres of land set aside for the site and play grounds on motion of Councilman Yeaton.

A petition for a pool room license on Huxford street was laid on the table. The petition of the Overseers of the poor, for an increase of salary from \$200 to \$400 per year was referred to the finance committee.

A petition of the permanent firemen introduced by Councilman Lecky for an increase of \$200 per year in the pay of the permanent men was referred to the Finance Committee. This would give the engineer \$1600 per year and the other permanent men \$1500 per year.

A communication from the Board of Health with suggestions in regards to the Peverly Brook water supply was

laid on the table after Councilman Yeaton and Mayor Hislop made an explanation that the water would not be used except for industrial purposes. Mayor Hislop said that the new pump which would be installed in a short time would give the city ample water.

The Board of Public Works recommended that the city purchase an acre of land for gravel adjoining the Lafayette road pit was after some discussion referred back to the Board. It appeared that Mr. Badger who has the contract for the state road, wanted to get gravel of the city, and he was willing to transfer this acre in exchange for a right to work in it from city land.

The Frank Beane Post, Legion of the Great War were granted a permit to use a part of Pleasant and State streets for a dance some time in August and the Mayor appointed Councilmen Yeaton, Humphreys and Donovan to co-operate with the Post.

Petition for a grand old sidewalk about the Public Library was granted and the Board of Public Works authorized to go ahead with the work.

Councilman Yeaton for the special committee on the Jitney law, reported an amended ordinance which was passed under a suspension of the rules. The amendment takes the granting of licenses out of the hands of the City Clerk and vests it in the Council. It provides that only those having their cars registered in New Hampshire be granted licenses. It also provides two number plates instead of one and for a violation of the law, provides a penalty of a fine of not less than \$20 for each offense. It clears up the ordinance so that the police may properly enforce the law.

Councilman Barrett wanted the licenses restricted to citizens of the city and Mr. Yeaton said that it would not be legal.

A resolution authorizing a bond issue of \$75,000 for the erection of a new school house on the city farm property, was passed under a suspension of rules. It carries bonds of \$500 denomination and they are to bear interest of 4 1/2 per cent. Councilman Humphrey wanted the bonds of small denomination, but it was decided that \$500 was low enough.

The Mayor for the committee on selling the city property for the erection of a central fire station said that they had rejected all of the bids and the committee favored a public auction. It was brought out that the Salvation Army has no option on the Peabody school property on State street which is part of the land offered and will have to buy at public auction. The time in which the buyer may take possession of the property was under consideration, but it was practically decided in six months after the sale. The Committee were authorized to advertise and sell the property at public auction.

At the same time the committee on City Land and Buildings, were authorized to secure plans and specifications for a new central fire station and to submit them to the Council as soon as possible.

Councilman Beane for the special committee on a memorial for the men who took part in the world's war from this city, reported one set of plans submitted by the William Highton Co. of Newham. These call for three bronze tablets 32 by 52 inches, with the proper inscription and one with the seal of the city, another with the seal of the army and the other the seal of the navy, the tablets to be erected

WOUNDED MEN SERVED SUPPER

In recognition of their part in the great world war and to show appreciation for their bravery, the Methodist parish last evening entertained the wounded men at the Naval Hospital, who are being treated there since their return from France.

Sixteen of the invited ladies at the hospital were able to accept the invitation and the Methodist parish had automobiles drive over to the naval hospital at five o'clock to bring the men to their destination. Upon their arrival all were given a cordial welcome by the pastor, Rev. Elmer F. Newell and members of the society.

Before supper was announced all were invited into the vestry where a sing was enjoyed. At its conclusion supper was served on the lawn. The tables were prettily arranged and beautified with bouquets of sweet peas. The inviting menu included cold meats, salads, rolls, pickles, fancy pies, assorted cake, coffee and ice cream. Covers were laid for 36, a number of the parish also enjoying the repast. At its conclusion Lieut. Jack Finney of New York gave a talk on the "Hogus Men in the Service," telling of fakers who are traveling about the country wearing a uniform to appear like that of men in the U. S. Service. He gave a number of illustrations and also told of the proper insignia worn on U. S. uniforms, having a number of such to show his hearers.

After supper was over the time was passed on the lawn. A graphophone furnished music and home made candles were served. Later the wounded men were given an automobile drive to Hampton Beach and upon their return were driven to the navy yard landing where they took the boat for the return to the hospital. All were loud in their praises of the Methodist society for planning the event which proved so pleasant to the wounded men who were guests of the evening.

The supper was in general charge of Mrs. Richard Brille, assisted by Mrs. Elmer F. Newell and Miss Judith M. Paul. Young people of the parish assisted in the serving. Mrs. William Brille was in charge of the transportation.

AERIAL MAIL PILOTS STRIKE

(By Associated Press)

New York, July 25.—A strike of aerial mail pilots began today, no aviator appearing to take out the plane with Chicago mail due to start for Bellefonte, Pa., at 5.00 a. m. The aviators state they have complained on several occasions that planes supplied them were poorly equipped even in good weather because of their high speed. They said they desired lighter and slower machines as in misty or foggy weather, visibility was so poor as to make high speed dangerous. The men declared that since July 16th, fifteen accidents had occurred in which ten planes were demolished and two aviators killed. Aviators of mail at Chicago, Cleveland and Bellefonte will join in the strike according to the local aviators. Twenty pilots at Belmont Park, all civilian employees at the Postoffice department are affected.

BUY YOUR COAL NOW

Harry A. Garfield, U. S. Fuel Administrator, says: "Buy now—in August or the autumn will be too late. A big coal shortage is coming. Thousands of mine-ers are going back to Europe. Coal production has fallen off considerably and a shortage of many million tons looks probable. My advice to consumers is to buy NOW while they can get a selection and DELIVERY."

"I feel bound to say that, as I see the situation, we are likely to experience a coal famine in the Fall."

Walker T. Hines, Director Gen. of U. S. Railroad Administration, says: "Unless the consumer buys his coal this summer he is going to find it difficult to get it this Fall and Winter. I predict a shortage of cars because of resumption of business in general, with which the coal industry must share transportation facilities. There are plenty of cars today and consumers of coal are urged to use them while they can get them."

EGYPT UPRISING QUELLED WITH BIG LOSS OF LIFE

(By Associated Press)

London, July 24—800 natives were killed and 1000 wounded in the recent disturbances in Egypt according to dispatches from General Allenby as reported in the House of Commons by the under Secretary today. The casualties among the citizens was 31

killed, 35 wounded; military casualties, 29 killed, 111 wounded. The death sentence was imposed on 39 natives and 27 were imprisoned for life and 2000 were sentenced to short terms. The military court has been done away with and the sentences reduced by three months.

ANDRESON HELD WITHOUT BAIL

Dragged Girl to Bushes on the Roadside Sunday Night.

Adolph Anderson, the man arrested here on Wednesday for the Dover police, was before the court in that city on Thursday charged with assault of a criminal nature on Miss Gumboro Stevenson on Sunday evening on what is known as the Gulf road.

The girl testified that she took a car on the Dover, Portsmouth and York Beach street railway last Sunday evening at 10 o'clock to go to her home at the Greek farm. The respondent here was seated in a seat with me; he had a bag of plums and asked me to have some. He told me that he had been to Emerson's but they were not at home. When I got off the car at Tidewater Farm he also got off. It was very dark and he offered to go home with me; I told him that he was a stranger and it was so dark he would get lost, but he said he didn't care. I told him he had better not go home with me but he insisted on going.

After getting across the bridge he took hold of me and carried me across the road a distance of 25 or 30 feet and dragged me through the bushes beside the road. He then grabbed me and began to kiss me; he forced me down; after a hard struggle I succeeded in getting away from him, after which I ran all the way home. I was in such condition that I was unable to sleep during the night.

Anderson testified in his own defense—I got aboard the car because I thought it was going to Portsmouth. When I discovered that it was not the Portsmouth car I got in conversation with this young lady; I decided that I would see her home. I was kissing her when she began to find fault. I let her go as soon as she told me to stop.

When I found the young lady on the car I did not begin to talk about the Emersons. After we had got off the car I asked her how heavy she was; I then picked her up in my arms; she knocked my hat off and we both fell down; I don't know what the crazy notion in my head was that caused me to pick her up in my arms.

He was held without bail for the superior court.

SEEKING EVIDENCE AGAINST L. W. W.

RECESS COM- MITTEE TO STUDY STR. RAILROADS

(By Associated Press)

Boston, July 24—The legislature took favorable action today on an order for a special committee to consider the street railroad situation. The committee will consist of five men appointed by the governor, five members of the House and three of the Senate. The order was passed at the request of the Governor who asked that entire question of street railroad be gone into by a special board.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try It! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

BOOST MILK PRICE HALF A CENT

(By Associated Press)

Boston, July 24—An increase of one half a cent a quart was voted today by the New England Milk Producers Association. The wholesale prices will go to nine cents a quart. Whether it will have any effect on the retail price the producers said they did not know as they were not concerned over the retail price.

CHILDREN'S VACATION OVERDONE

Modern educators seriously question the wisdom of complete abandonment of all studies for several months.

Work and play for every day should be the ideal. Musical study fares seriously enough with its one little hour a week.

Now is the best time for your child to study music with absolutely nothing else on its mind.

BRITISH TO PROTECT PEOPLE AT ANY COST

(By Associated Press)

London, July 24—The whole force of the British government will be extended to protect the people from any undue pressure," said Andrew Bonar Law, in the House of Commons today. When asked what was being done about the confusion and disturbances resulting from the dock workers and miners strike, he said that the government was well aware that there were a number of people, fortunately there were few, who are anxious for the destruction of the social and political order. As to the agitators he said that they were not being overlooked.

PRESIDENT SUSPENDS CONFERENCES

(By Associated Press)

Washington, July 24—President Wilson's conferences with the republican senators were suspended today will be resumed, but it has been indicated that the President will have a talk with every republican member of the senate before he gets through. It is said that Mr. Wilson knew of Mr. Taft's letter before he gave it out and that Mr. Taft was writing to democratic agitators with an idea of getting

Why You Should Buy Coal Now

The price of coal is 75 per cent determined by wages. The wage agreement at the mines continues until April 1, 1920. The Fuel Administration reports that 35 per cent of the mines cannot make any money at the present mine prices. In view of this, how can coal be cheaper this year?

Regulation of Aviation.

Terrible and regrettable as was the tragedy in Chicago a few days ago when a flying machine crashed through the glass roof of a bank building, resulting in the death of more than a dozen persons and the serious injury of many others, it is probable that it will lead to action beneficial to the public and to persons interested in aviation, either as navigators of the air or as passengers. As nothing before has done, this tragedy has opened the eyes of the authorities and the public to the fact that aviation is something more than a sport, something to be surrounded with reasonable safeguards.

The reading public is familiar with the details of this awful happening in Chicago—the fall of the machine from a considerable altitude, its crashing through the roof into the bank in which a large number of employes, male and female, were at work, the crash being followed by tank explosions and hissing flames, adding to the fatalities and maimings that had been caused by the crash the danger of death by fire. It was a horrible happening and the only wonder is that the number of deaths and injuries was not even greater.

An investigation was immediately begun, as was proper, and the public will await the result with exceptional interest. Already it is rumored that there was carelessness if not absolute recklessness in the flight and the preparations for it, but it will be well to wait for the outcome of the grand jury investigation before passing judgment.

If there was criminal carelessness in connection with this tragedy those responsible for it should be punished if they are still among the living, but that is not the main thing now to be considered. The thought that will force itself upon the public is that the time has arrived for the proper regulation of aviation outside of the army and navy, which may be trusted to look after it so far as they are concerned in a proper manner. But commercial aviation should be kept within proper bounds, and daredevilism, whether on the part of aviators or venturesome passengers, should be suppressed. In navigating the air there is danger enough at the best and it is the duty of the authorities to remember that there are people who need protection against their own foolhardiness. The sport, so far as it is a sport, is exciting and thrilling, but it should be conducted with due care for the safety of those engaging in it, and the safety of those who happen to be beneath them when things go wrong.

There is no doubt that air navigation, which has been so remarkably and rapidly developed since the beginning of the war, is to play a large and important part in the future activities of the world. It will never be inseparable from danger, and it is time to be considering means of reducing the dangers to the minimum.

Just how this is to be done is for the manufacturers of the machines, those who operate them and the law makers to discover, and that this lamentable happening will stimulate action to that end there is no reason to doubt.

It is no small compliment to Portsmouth that the deputies and clerks of the internal revenue office desire to remain here and are petitioning against the proposed removal of the office to another city. And it is also a compliment to the deputies and clerks that the people of Portsmouth would be very glad to have them remain. If all will pull together perhaps something may be done to achieve this desirable result.

A Philadelphia bank has discovered a \$900,000 shortage in its accounts and has its cashier under arrest on charges of perjury, embezzlement, misappropriation of bank funds, rehypothecation of securities, destroying and mutilating records and accepting deposits when the bank was insolvent. It would seem that out of such an assortment as that the bank ought to be able to pin him down to something.

A Massachusetts man claims to have invented a steel trolley car which will operate automatically, needing the services of no motorman or conductor. Now if some one would discover a method to make the trolley roads automatically pay fat dividends we might have peace, at least in that department of modern activity.

The Dover police are getting after violators of the automobile laws with the proverbial sharp stick, thereby setting a good example to this and many other cities that are too lax in this matter. The automobilists have rights and privileges that must be respected, but so do other people.

According to a dispatch from New York a "survey" covering the entire country shows that the number of strikes and lockouts at the present time is about normal. If this is true the public should soon be ready for the abnormal.

If the enforcement act passed by the lower branch of Congress ever goes into effect it should make the liquor business precarious, to say the least.

\$12.50 MINIMUM WAGE FOR CANDY MAKERS

(By Associated Press)

Boston, July 25.—An establishing \$12.50 as the minimum weekly wage for women workers in candy factories, the minimum wage commission today announced that this amount had been agreed upon as the least on which a self supporting woman could meet the cost of living and maintain herself in health. The appropriation of the wage was shown in an itemized budget which allowed \$7.00 weekly for board and lodging, \$2.25 for clothing, 30c for recreation, and 15c for self improvement. Other items in the budget were laundry 50c, car fares 75c, doctor and dental 30c, church 11c, newspapers and magazines 18c, vacation 40c, savings and insurance 30c, incidentals 25c.

DOVER

Dover, July 25.—Another name that has been mentioned about Dover during the week for the vacant position on the police board is ex-Mayor Beckwith, who expects to be discharged shortly from the army. With John Hagan and ex-Senator George L. Leighton already mentioned, the field is growing fast and by the time of the appointment many other names will be offered.

Dr. Herbert Rodden, son of Mr. and Mrs. Hugh Rodden of this city, returned home this week, after serving his country for two years. Dr. Rodden who enlisted after he had finished his course at the Baltimore Dental School at Baltimore, was sent to Camp Gordon in Georgia. After serving there for nearly a year, he was sent to Camp Mills, where he remained till the armistice was signed. After that he was stationed in New York on special service work. Dr. Rodden was more than pleased to be back home again and see all the boys who used to go to the barber shop to see him in the olden days. The doctors friends are very much pleased to learn that he has been discharged and will be soon ready to begin business again. Mr. and Mrs. Rodden gave two sons to the army and both were physicians. Their other son, Arthur Rodden, who is now residing in Maine, was also in the great conflict.

Probable cause was found to hold Adolph Anderson for this afternoon in September when he was arraigned before Judge Nelson on the charge of attempting criminal assault on Miss Catherine Evanson. The police believe this is the climax of a number of cases that have been going on in this city for the past week, where a strange man has been chasing young girls.

The charge is that the accused got

JAPAN MUST SHOW HER INTENTIONS

Washington, July 25.—The Shantung episode figures in a new light today, as possibly promising a quicker and easier adjustment of the treaty dispute than had been hoped, when it became apparent that this represented perhaps the most sensational subject of disagreement between the Senate and the White House. So high has feeling run over the Shantung concession that it is predicted can be made a little more confidently than another with respect to action on the treaty. It is that the treaty never will be ratified unless Japan retires from their vague and unsatisfactory position which occupies with regard to China and assures the world in black and white that world wishes will be respected. On the other side it is being asserted with growing confidence that one result of the Senate criticism will be to strengthen the President in trying to secure from Japan assurances that will satisfy the American people and help the distrust of Japanese diplomacy which is a powerful factor in deciding the Senate to unite for the protection of China. The admission that the Japanese government has not affected the situation materially, for it was already known that the President had disagreed with his colleagues, and one of the resolutions of Senator Lodge was designed to bring out these facts.

Charles Durnin, another Dover boy who was with the A. B. F. in France has been released from service and returned home from Camp Devens Wednesday after arriving in New York a week ago. Charles was with the motor division in the aerial section. After a short vacation he will resume his position at the plant of Joel Sheppard in Dover.

Edward McInerney co-editor of the Eastern Elk, was in Dover this week calling on many of his old friends in Elkdom who resided in and around Dover. He will spend the remainder of the week in Dover and will wait over to see the 20 candidates receive the degree work under Jeremiah Crowley next week.

The Dover boys who have been incurring property of the Sawyer's Woolen mill, were given a lecture Thursday morning by Assistant Marshal Dan Murray, Agent of the mill. He did not desire to have the boys punished, so the charge was dropped.

The Dover City band gave the regular Thursday evening concert on Central square. The music was exceptionally pleasing to all.

Mr. and Mrs. Frank Ham, formerly of this city, have returned to Dover to spend the week with Mr. Ham's sister, Mrs. G. Wentworth of this city.

NAVY YARD NOTES

Will Be a Flagship.

The navy department has asked the local yard for a specified time regarding work on the South Dakota necessary to make certain alterations. The vessel is to be assigned as the flagship of the commander-in-chief of the Atlantic fleet. The local yard has informed the bureau that the work will at least take 60 days. Previous orders had it that the ship would remain here but a few days.

Lieut. Johnson Detached.

Lieut. John A. Silva has been ordered to the local yard relieving Lieut. Otto Johnson, an inspection officer in the Industrial Department who has been detached.

New Destroyer.

The torpedo boat destroyer Crowninshield was launched by the Bath Iron Works on Thursday. She was christened with champagne by Emily Crowninshield Davis, the 11-year-old daughter by Dr. Lincoln Davis of Boston, and great-granddaughter of the Secretary of the Navy during President Madison's second administration, beginning in 1814, for whom the craft was named.

Men Kick and Shop Closes.

Regardless of the analysis of the drinking water of the yard, which have been posted on the yard bulletin boards, the force of men employed in the Smith shop made a protest today which finally ended by the closing of the shop and the men going home. Yard officers and medical men acquainted with the situation admit that although the water is somewhat discolored it is absolutely fit for drinking and in no way dangerous.

Civil authorities who also made analysis, make the same claim that the water meets all requirements, but the men think differently. What the outcome will be remains to be seen.

CHILD DYING FOR THE NEED OF BRANDY

The 18-month-old son of John Weller of Springfield is at the point of death and many druggists to whom the father appealed for brandy refused to fill the physician's prescription.

The infant is ill with acute gastroenteritis and is rapidly starving, the father said. Several druggists said they were without the desired liquor while others said they did not dare to sell it.

Last evening the comedian entertained the men at the naval hospital and was heard with enthusiasm. He has been in war work for the past two years.

BOY SHOT MOTHER ACCIDENTALLY

Salem, N. H., July 24.—The fatal shooting of Mrs. Marion Sarkis by the discharge of a revolver while her six children were clustered about her in their home in the Millville district, last night, was held by the authorities today to be an accident requiring no official action. The revolver was in the hands of one of the four boys when the hammer was released accidentally. The father, Louis Sarkis, told the police that he did not know which of the boys had the weapon at the time. Mrs. Sarkis died instantly. She was 35 years of age.

Coblenz, Tuesday, July 22.—Sixty Germans from Cologne, Berlin and other cities were arrested here tonight by army intelligence officers in connection with an alleged plot to defraud the government of millions of marks by eliminating competition at auctions of army supplies. Intelligence officers said the fraud was accomplished through an organization most of whose members now are under arrest, that kept competitors from bidding at auctions where salvaged army material was sold. On some days the auction sales amounted to 15 and 20 million marks, most of the material going to members of the organization. American soldiers in plain clothes sent into the crowds at auction sales according to officers, repeatedly were offered large sums of money not to bid against members of the organization. At night it was said members of the organization met and the material was re-auctioned to the members. Material sold to members of the organization will not be delivered.

Mrs. Josephine R. Hazlett died Thursday morning at 318 Orange street, Manchester. She was born in that city Sept. 3, 1855, and was the daughter of the late Edwin P. Richardson and Elvira R. Haradon. She was educated in the public schools of that city and was graduated from the high school in the class of 1875, and taught school until her marriage. The survivors are the widow; her mother, Mrs. E. P. Richardson; one sister, Mrs. E. M. Bryant of Manchester, and one nephew, Ernest R. Bryant of

Boston. Mrs. Hazlett was a member of the Advance club and Mary J. Boncher Tent, Daughters of Veterans. She had been in failing health for several months.

She passed a greater part of her life in this city and resided on Rockland street. She was an active member of the North church and the Klux's Daughters. She went to Manchester to reside a year ago. The Knights of Columbus and the Y. M. C. A. had to go an extra inning in the final game on Thursday evening to decide their match which ended a win for the Knights. The Knights climbed a step nearer the three leaders and there also put a few games between the four top teams. This evening the Y. M. C. and the Atlantic will play a postponed game and it will have its bearing on the standing if the P. A. C. should cope the game.

The Knights hit Miltick for six singles while Driscoll held the Y. M. C. down to two long hits. It was a good game well played and there was some

game in the fourth with one gone. Walters fumbled Duple's drive, a sacrifice by Hicks advanced him, and he scored on a single by Miltick.

In the extra inning after Gibson had fanned, Phillips hit for three bases; Duple's drive to Timmons who held Phillips at third and Hicks fanned.

The Knights were more fortunate after two were gone. Walters hit for a single and stole second, he advanced to third on Cavanaugh's hit ball which was felled to cut him off at third and Thomas staged ending the games as Walters scored.

FINED \$75 IN LOBSTER CASE

Maine Laws Working a Hardship Among the Fishermen.

Ralph Seaward of Kittery, a lobster fisherman, was before the municipal court in South Berwick on Wednesday where he paid a fine and costs amounting to about \$75, for selling lobsters in Portsmouth in violation of the Maine law, and on a complaint of the Maine seashore fish wardens.

The case of this man shows the inconsistency of the Maine law. This man was within his legal right in selling the lobsters in New Hampshire as far as the required length of the shell fish is concerned, but he had not paid the sum of \$5. for a license to bring them over the state border.

The Maine law not only requires this license fee, but a man must give a bond of \$5000 to dispose of his catches out of the state and a bond means a man must have personal property to that amount.

Maine fishermen do not hesitate to say that such a law is driving them out of business and for a poor man a living is impossible. Had the state passed a law similar to that of Massachusetts and New Hampshire a good deal of this trouble would be avoided.

An appeal has been received, direct from friends in France, for Aid for the little village of Bretilles, a bas St. Quentin, Alsace. The village has been terribly devastated by the German invasions, and the cure has struggled valiantly with the slender resources at his command, to re-establish his people among the ruins of their homes.

To send to this noble worker some assistance, and the encouragement of the knowledge that far away Americans are caring for the fate of his people, as well as to help those brave people, Miss Rosamond Thaxter and Miss Rosamond Wild will hold a Bridge and Tea at the home of the latter in Kittery Point, on Thursday, July 31. All those who play bridge are cordially invited and those who do not play, are urged to come to the tea.

Mrs. Arthur B. Clark of Manchester pleasantly entertained a few guests at tea on Thursday afternoon at her cottage at Kittery Point.

TOM OSBORNE AS TOM BROWN THE GOB HAS HIS TROUBLES

Lieut. Comdr. Thomas Mott Osborne of the Naval Prison now doing a months hitch in the uniform of a gob and known as Tom Brown among the ships company of the North Dakota, tells of his trials and troubles in the following letter to the Mutual Welfare League.

It is just a week ago tonight that I put on my "blues" in order to be restored to the service the next day, and perhaps you would like to know something about the adventures of the "Big 4" since that time.

As you know, my desire is to leave more about things in the Navy. Well, I am learning fast. Here is one of the things that I have learned; that there are pleasant occupations than scrubbing the deck of a steamer with the thermometer at 93 degrees over in the city and about a thousand, I should guess, in the fire room.

You see, Duffy, McShea and I are billeted in No. 1 fire room of the North Dakota and I guess the Chief thought that now was the time to clean up when he had three fresh guys to do it with, and that fire room isn't the cleanest place in the fleet. It's because McShea, as an old fireman, understands how to "solder."

Some people "think" the statue of Venus de Milo is a great work of art; architects go into raptures over Salisbury Cathedral. But there is a disk and gang among the brass work of the North Dakota that I will back as a work of art against the Salisbury Cathedral any day. I polished it myself.

About the time I was wondering whether I should die right there or try and struggle up these iron ladders and work in a cooler atmosphere, the Chief told us to knock off work so I am still alive.

It was Thursday when we four gobs turned up at the New York Resolving Ship. We left Portsmouth on Monday afternoon and what we were doing between Monday and Thursday is none of your business. It is enough to say that we met at the Navy Yard gate in Brooklyn and found that the Resolving Ship had moved to Bay Ridge, so to Bay Ridge we went and the first thing we saw was a gob on guard with the silver button of the M. V. L. recently displayed a niche pocket of his jumper. Good for him! He made us salute and grinned a hearty welcome to his old shipmates.

Our stay at Bay Ridge was interesting, but not long. They hustled us through in record time—about three hours. There are 7,000 men there now, and it looked it.

By three in the afternoon we were aboard the North Dakota, anchored in the Hudson, opposite 33rd Street, and Lieut. Comdr. was showing me how to fix up the hammock, flashings and get things into shape. Of course, I was in the deck force; so it was very kind of him to be polite to a fireman, third class.

Here is the second important thing I have learned about the Navy: the chief object and most important duty of men in the service is to get Shore Leave. No sooner were we on the North Dakota than we began making preparations to get off. We got leave until Saturday morning, after we went aboard Friday evening. Then we got leave again yesterday (Saturday) afternoon, to last until Monday morning at 3. But we shall go aboard this evening.

The weather has been so furiously hot that we have been uncomfortable wherever we were and it has been so hot that no one has felt like eating much (except, of course, Joe McShea, who is always ready for a large steak and whose appetite—well, that would take a whole letter by itself). But if it is too hot to eat, it is not too hot to drink; and the amount of coal and refreshing liquid that we have absorbed—from ice-water to ice cream sodas and back again—would fill a large tank liner. I think Duffy has holes in his toes; for I don't see how any human being can hold so much at one time.

But while, as you see, I am learning—there are things I have yet to be mastered. I have not yet discovered why thirteen buttons? There are several theories that seem more or less plausible, but none seem to cover the ground. I hope to find out before I return to Portsmouth with a G. C. M.

Neither have I found out how to get a satisfactory bath and dress in a very crowded and unattractive space—with a bucket of water.

During my work yesterday, I made up a little pamphlet to reflect my feelings:

There once was a sea-going gob;
Who said to himself, "I'm no end;
It makes me quite sore;
To scrub up the floor;
But to polish, I'm right on the job."

With best remembrances to all our shipmates in Portsmouth from the "Big 4" including:

Your friend,
Tom Brown,
Coal Passer.

ASKS THAT ALL BUILDINGS HAVE PROPER NUMBERS

Public Works Sends Out Circular to Help City's Progress; New Name Plates of Streets.

Owing to many new streets, new houses and new residents, the Board of Public Works finds it necessary to make improvements in the way of new street signs and house numbers and asks the people who own houses to kindly see that all old numbers are removed and the new numbers put in place. This is necessary to avoid the continual confusion in delivery of express properties, mail, etc. Conditions are not the same as ten years ago and the city is growing. Strangers are complaining of not being able to find numbers on streets and those who do not put up the new numbers are helping to retard the business of the city. If you do not know what your new house number is consult your insurance policy, a city directory or the Public Works Department. The following circular has been issued by the board of public works. If owners of property insist on leaving houses unnumbered or allow the old number to remain on buildings, the city council will be asked for cooperation and some arrangement made whereby this confusion will end and the houses properly numbered.

The new street signs will be put in the most conspicuous places. It is to the people to help the city's progress. Put the proper number on your house. The circular issued by the Public Works is the following:

A few years ago a new system of street numbering was adopted which necessitated the renumbering of all residences, business blocks and properties. Many landlords and tenants at that time put their new numbers on their homes, but many residences still carry their old numbers instead, and many have none on them. Owing to this incomplete and misleading numbering it is extremely confusing and difficult, even if not absolutely impossible, for strangers to find any particular house on a street or to get any exact information from residents of the city as to the location of a certain number. We are calling your attention to this matter believing you will be interested in having this condition remedied, and, if your residence is not correctly numbered, you will feel it your duty to have it so numbered at your earliest convenience. For the benefit of the many newcomers to our city searching for rooming accommodations, as well as for the convenience and help to local delivery and carrying services of all kinds, we should all feel it incumbent upon ourselves to give our aid toward this improvement. This is really an important matter as

negligence in this regard reflects on our civic pride and causes much unfavorable criticism from strangers and visitors to our city. We respectfully solicit your cooperation in accomplishing the object of this appeal.

GIRL SAID SHE WAS GOING TO END HER LIFE

Father Reports Her Missing
From This City Since
Tuesday.

Little Frisbee, aged 17 daughter of George J. Frisbee, is missing according to her father who has put the case in the hands of the Haverhill police with no success so far. She disappeared on Tuesday noon.

The young woman worked Tuesday morning, returning home at noon. She was later seen leaving her home with a traveling bag. Mr. Frisbee trailed his daughter as far as Hampton Beach. She went there in a motor truck driven by a sailor, whom she told that she was going to the beach to end her life by drowning.

The police at Hampton and Salisbury Beaches were given a description of the girl.

LEFT THE SILVER PITCHER BECAUSE IT WAS SO BULKY

Takes Caps Off the Pepper
and Salt Shakers.

The house burglar who has been operating in this city distinguishing himself in the selection of loot at the C. H. Kimball residence on Wednesday afternoon and went the limit at this place.

In his inspection of silverware he passed up an old fashioned solid silver water pitcher which has been in the family since 1800 simply because it was too bulky to carry unobserved, but the climax was reached when he went to the dining room closet and took off the solid silver caps of the salt and pepper shakers.

ANNUAL PICNIC HELD AT FORT M'CLARY

Piscataqua Chapter, No. 90, O. E. S. of Kittery held its annual picnic Thursday afternoon and evening at Fort McClary, Kittery Point. There were from 100 to 200 members and friends present and all derived much pleasure from strolling about this historic place, which made an ideal spot for the outing. A basket lunch was enjoyed at six o'clock and games and contests followed which proved most interesting. Several new champions were discovered in the races and prize games. Among those returning home with valuable souvenirs were, Mrs. Howard Moody, Mrs. J. Frank Jemmer, Miss Mae Moody, A. J. Chesley, Frank Morris and several others.

All voted Fort McClary a delightful spot for the gathering and came home with the determination to learn much more of its history.

MISSIONARY SOCIETY OUTING AT JENNESS BEACH

The Susan Green Missionary Society held an enjoyable outing Thursday afternoon and evening at Jenness Beach. The participants left this city on the 2 o'clock car and the afternoon was passed on the sands. After their arrival a short business session of the society was held and definite plans were worked out along missionary lines. Mrs. May C. Caswell, president of the missionary society, presided. It was voted to help purchase some part of the equipment for a chapel which is being erected at Santa Isabel, Porto Rico, by the Christian denomination. Late in the afternoon supper was enjoyed on the beach and the return home was in the evening. The day was a pleasant one and the outing a success.
